

AUSTRALIAN MATHS TRUST

2019 EVENTS AND PROGRAMS

Ignite your students' imagination and enrich their knowledge in mathematics and algorithmics

February 2019

Dear School Coordinator,

Key points

- AMT launches a new brand and website www.amt.edu.au
- Easy competition management via a new competition platform
- Kangourou sans Frontières available online for those entering the AMC
- Free resources for you to integrate into your teaching activities via our website

Welcome back to another school year. It is set to be a transformative one for the Australian Maths Trust.

In fact, 2019 has only just started but we've already launched a colourful new brand and website and we've started rolling out a new online competition platform to make our competition registration, management and payments easier than ever before!

Everything we do is aimed at getting children excited about maths and keeping them engaged so they become better problem solvers in school and creative solution finders in life. And we believe that enjoying the challenge of maths is the most effective way to get them there.

Our competitions and programs are the key way for you to help us achieve this mission.

We have individual competitions and programs that focus on maths, information science, algorithmic thinking, information and communication technology, and developing girls in STEM subjects. Better still, we have great resources (practice papers and program materials) that you can integrate into your daily teaching activities.

Our high-quality maths content is embedded into annual events like the internationally recognised Australian Mathematics Competition (AMC) and programs that run over a series of weeks.

This year we're adding the online Kangourou sans Frontières competition to the mix, enabling those who have entered the AMC to also enter this international competition.

In 2019 we will be offering the following open events for schools to run.

Event	Event date	Cost per student AUD	Open to students	Entry closing date
Kangourou sans Frontières (KSF)	Thursday 21 March	Online competition only. Available when bundled with the online AMC, or online CAT/AMC.		
KSF and AMC Bundle	-	10.00	years 3–12	18 March
KSF, CAT and AMC Bundle	-	12.00	years 5–12	18 March
Computational and Algorithmic Thinking (CAT)	Tuesday 2 April	6.50	years 5–12	Paper: 15 March Online: 26 March
Australian Mathematics Competition (AMC)	Thursday 1 August	6.50	years 3–12	Paper: 21 June Online: 25 July
CAT and AMC Bundle	-	10.00	years 5–12	Paper: 15 March Online: 26 March
Australian Informatics Olympiad (AIO)	Thursday 22 August	19.80	years 7–12	15 August
Australian Intermediate Mathematics Olympiad (AIMO)	Thursday 12 September	19.00	years 7–10	4 September
Program	Program dates	Cost per student AUD	Open to students	School results submitted by
Maths Challenge	3 to 4 weeks March–June	18.50	years 3–6	21 June
		25.50	years 7–10	21 June
Maths Enrichment	12–16 weeks April–September	42.00	years 4–10	4 October

Note: Late entries will be processed but materials cannot be guaranteed to arrive by the event date.

Our new registration site details is now live <https://competitions.amt.edu.au/admin/>.

All events now use the same registration provider. You can register for multiple events in the same order, or separately at any time while registration is open.

Orders can be paid immediately by credit card or later via invoice. Invoices for all orders will be emailed to the email address supplied, so ensure this email is correct.

NB. If you wish to update the contacts at your school, you can change them when you place an order via our new registration portal. If none of the contacts on file are available, please email amc@amt.edu.au with the new details.
